Who you will meet

Public Advisors

Operations and Visitor Services

Ethan (host)

All staff will be wearing an ICA lanyard, you can use this to identify us if you need any assistance.

Info & Sales

- Available for you
- Blankets
- Ear plugs
- Ear defenders
- Hand sanitiser

When you arrive, you'll meet the Public Advisors on the desk. They will either take your name and give you your ticket or sell you a ticket.

The foyer and cinemas are equipped with an induction loop system for visitors using hearing aids.

Toilets

- The door slides open and close via a handle
- There are grab bars at the side of the toilet
- The toilet flushes by a sensor, which is behind you
- Roll under sink in the toilet
- Lifting tap faucets
- Twist lock
- Width: 7 × 5'4 ft

Accessible toilet is marked on the outside with a wheelchair symbol.

In every ground floor set of toilets there are 4 cubicles. The set of toilets closest to the main door entrance also has an accessible toilet.

Each cubicle also has a different coloured light: red, blue or green. The accessible toilet has a standard white light.

Cinema 1

Cinema 1 has step free access from our main Mall entrance and is accessible by ramp.

The screening room is lit well upon entrance and departure with offwhite bulbs. Music will be playing before the trailers begin.

We have a wheelchair allocated space with a seat for a companion next to it. This space is in front of the door and has easy access. This is what your view looks like from this seat:

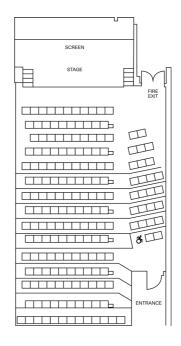

These are our seat size dimensions: $W 42 \times D 45 \times H 52$

Arm rest either side of the seat dimensions: $1.27 \times W.7 \times H.20$

There is no assigned seating. If you require a specific seat, please reserve this in advance via the access@ica.art email.

All seats are hard back, have a crushed velvet feel and they do not recline.

Cinema 1: seating plan

Upper Galleries

Quieter area

The Upper Galleries will be open during your visit. You can use this space if you feel like you need to take a break. This space will be available from 12 – 6pm. There is no music played here, and the general public will not be using these rooms.

There are two points of entry to the Upper Galleries. Either using the stairs from the bar area or by using the lift. The lift is not big enough for most wheelchairs, and changing to a standard chair is required. The stairs from the lower ground bar feature an artwork by Jenny Moncur.

There is also a men's toilet on this floor, which has 2 urinals and one cubicle inside. The women's toilet is halfway up the stairs towards the Nash and Brandon rooms, these toilets have 3 cubicles inside.

Discussion

After the screening we will also use the Upper Galleries to hold our discussion. They are lit by overhead strip lights and the rooms are usually a lot quieter than our ground floor.

The Upper galleries will be set up in a relaxed discussion style with chairs set up in a round. Ethan will host this discussion and it will last around an hour. Please feel free to ask any questions you like and to come and go from the discussion and space when you like.

There will be an ICA member of staff present in the bar area and upper gallery rooms from 2–6pm. They can help you find your way to the quiet room and the discussion or help answer any questions or requirements you may have.

Screening info

Timings of the Relaxed Screenings

2:20pm Screen doors open

2:40pm Introduction 2:50pm Film starts 4:30pm Discussion to live alone is the cause of much gossip among her fellow villagers. When she finds herself falling for a man, she must decide whether to pursue a relationship or continue a life of independence.

A bit about Ethan

Dr. Ethan Lyon is a graduate of the University of Southampton with his thesis 'Distorted Screams, Double Lives: Autism and Gothic Horror Cinema, 1931-1967'.

He is a co-host of the Autism Through Cinema podcast and has presented Relaxed Screenings at the British Film Institute since 2022. Currently an independent researcher, Dr. Lyon is passionate about film's power to communicate the lived experience of disability, especially autism, to film fans of all backgrounds.

About the film

Blackbird Blackberry
1hr 55min

Living in a small Georgian village, 48-year-old Etero cherishes her freedom as much as her cakes, and never wants to marry. Her choice

The discussion

The discussion will involve you reflecting on watching the film and how that relates to your experience of neurodiversity. You do not need to have a diagnosis or be neurodivergent to take part-this discussion is for everyone to participate in. The discussion will be a safe space and we ask you to be respectful of everyone participating.

After the screening

If you have visited our cinema then you will receive a complimentary ticket to our exhibition space. The galleries and building may become busier and louder.

You are welcome to stay in the exhibition or go back in after taking a break in the Cafe/Bookshop. Show the member of staff outside the entrance to the exhibition your sticker to re-enter the Lower Gallery.

Feedback

This is the first relaxed screening at the ICA, so we are running it as a test screening. We hope to receive feedback from our visitors, hosts and staff to use for future screenings. With the hope that we will run monthly relaxed screenings going forward.

We hope that you enjoy this relaxed screening. It is the first test screening and there will always be things we can change and adapt. We would love to hear from you about suggestions and changes that we can make.

If you have any suggestions or changes to discuss with us, please email millie.wright@ica.art

For more specific access requirements and enquiries please email access@ica.art
